## ~ Floral Design Prices ~

It is hard to give fixed prices for bouquets and arrangements, as they vary depending on a number of factors including the size of the arrangement, the specific flowers requested, the time of year and the amount of work involved in constructing the arrangement.

As a rough guide, high value flowers include roses, peonies, dahlias, hydrangeas and hellebores, while less expensive flowers include peak season tulips, daffodils, sweet peas, Sweet William and gypsophila. Having said that, for urn, churn and table arrangements, hydrangeas can work out quite reasonable overall because they are so large and a few go a long way. Generally, flowers are less expensive during their peak season and tend to be of superior quality.

To see which flowers are flowering when, please refer to the list **British Flowers by the Month**.

Below is an overview of the prices of some of the items offered to give you some idea of which budgets I can work within. I have a **minimum spend** of £250, as I only do one wedding or event on any given day.

## Booking and Payment

A save-the-date fee of £50 is required at the time of ordering to secure your booking. The fee is non-refundable but will be deducted from your final bill. The remaining balance is payable three weeks before your event. Payments must be made by cheque or bank transfer. Account details will be provided at the time of booking.

## ~ Hire Items ~

The items shown on the next few pages have been collected over many years because they were both attractive and useful for displaying flowers or candles. Many of them are vintage or even antique and may therefore not be available in large numbers, though some of them are, so please ask if in doubt!

Also, if you cannot find what you are looking for on the following pages, please get in touch. I am constantly adding to the collection and will try to source an item, if you have something specific in mind.

The prices are for hire of the items. Breakages or losses are chargeable at the hire price x 5.

All measurements are approximate and indicate height unless length is specified. An asterisk indicates that an item is available in an alternative colour.
